NAMAN KHARE

Data Engineer | AWS Glue | PySpark | S3 | SQL | Python | Oracle | Data Warehousing & Analytics
Noida, India | P: +91 7974961655 | naman.khare31@gmail.com

Summary

Data Engineer with 4 years of experience in analytics engineering, batch data processing, and enterprise data platforms. Strong background in SQL-based transformations, data validation, and automation for business-critical reporting systems. Hands-on experience building PySpark-based ETL workflows using AWS Glue and Amazon S3 to support reliable, end-to-end data pipelines.

Work Experience

Solution Engineer, Indus Valley Partners — Noida, India
Jul 2025 – Jun 2026

Internal Data Quality Tool - FSCS

- Developed PySpark-based data validation and reconciliation workflows to support internal data quality checks.
- Built and maintained AWS Glue ETL jobs for batch processing, leveraging Apache Spark execution.
- Seamlessly imported and exported files to/from Business NAS and AWS S3 Buckets.
- Collaborated with cross-functional teams to support reliable execution of data quality workflows.

Tech Stack: AWS Glue, AWS S3, PySpark, MWAA(Orchestration)

Security Master

- Owned data workflows for the Security Master platform, using SQL and enterprise data warehousing to support 99.9% data accuracy for downstream portfolio and regulatory reporting.
- Translated client and business requirements into scalable data solutions, collaborating with engineering and operations teams to improve data ingestion success by 30% and reduce recurring data issues by 25%.
- Supported production data pipelines and issue triage via Zendesk, reducing average incident resolution time by 35% while ensuring stable platform performance.

Tech Stack: SQL, Enterprise Data Warehousing, Batch Processing, CI/CD, Zendesk

Application Development Analyst, Accenture — Noida, India
Client: Halliburton — Sep 2022 – Jul 2025

Halliburton AMS

- Played a product-facing role in a large-scale Oracle Cloud ERP migration, supporting 30+ schemas and 300K+ end users.
- Collaborated with product owners, business stakeholders, and engineering teams to define requirements, acceptance criteria, and release priorities, supporting end-to-end UAT and achieving zero data loss with a 30% reduction in downtime.
- Automated key data processes using SQL scripts and batch jobs, developing and maintaining complex SQL queries, stored procedures, and functions, and performing ad-hoc data extraction and transformation for reporting and analysis, resulting in a 40% reduction in manual processing time.

Tech Stack: SQL, Power BI, Data Warehousing, Batch Scripting, Tableau, Oracle Cloud, Postman, Toad

Database Migration and Platform Transition

- Conducted Oracle Cloud platform reconciliation of cloud migration.
- Designed and delivered self-service BI dashboards (Power BI, Tableau) to track KPIs like sales, operations, and inventory.
- Developed and implemented comprehensive error handling and logging frameworks, ensuring data integrity and minimizing post-migration issues by 20%.

Tech Stack: Oracle Cloud, SQL

Automated Workflow and Job Scheduling

- Built automation frameworks for recurring jobs and ETL pipelines, improving efficiency by 50%.
- Actively partnered with operations, warehouse support, and technical teams to identify bottlenecks and deliver business-critical improvements.
- Documented product and technical requirements, coordinated implementation across teams, and tracked user adoption while optimizing batch jobs and database queries to improve execution time and overall system performance.

Tech Stack: Shell Scripting, SQL, Unix, ETL, CI/CD, Service Now, MS Windows Server, Pyspark.

Education

Jaypee University of Engineering and Technology, B.Tech, Guna, MP — 2018-2022
Mansarovar Academy, Senior Secondary, Vidisha, MP — 2017-2018

Additional

Soft Skills: Adaptability, strong Work Ethic, Quick Learner, Team Player, Leadership.
Certifications & Training: Oracle Cloud Infrastructure 2023 AI Certified Foundations Associate, The Web Developer Bootcamp, Algorithmic Toolbox.
Other Achievements: Secretary – Media Wing, JYC, JUET(Guna), Joint Secretary, UI/UX – Mozilla Pheonix Club, JUET (Guna).
